1. Introduction

1.1. Project Description :-

- ☒ The Hotel Booking Website is a user-friendly online platform designed to simplify the process of searching, comparing, and reserving hotel accommodations. The system provides customers with a seamless experience by allowing them to browse through available rooms, view amenities, check prices, and make bookings in just a few clicks.
- ☒ In today's fast-paced digital world, travelers prefer convenient and efficient solutions for planning their stays. This website bridges the gap between hotels and guests by offering an interactive interface that ensures transparency, reliability, and ease of use. From budget-friendly stays to luxury accommodations, the platform caters to a wide range of preferences and requirements.
- ☒ For hotel administrators, the system provides an easy-to-manage backend where they can add new hotels, update room details, manage bookings, and monitor availability in real time. This not only improves operational efficiency but also enhances customer satisfaction by ensuring accurate and up-to-date information.
- ☒ Hotel Booking System have two panels :
 - ✓ User Panel
 - ✓ Admin Panel
- ☒ User Panel :
 - ✓ User Registration & Login
 - Create a new account with personal details.
 - Secure login using email/username and password.
 - Profile management (update personal details, password, etc.)

✓ **Hotel Search & Filter**

- Search hotels by name, location, or category.
- Apply filters such as price range, amenities (WiFi, pool, parking, etc.), room type, and ratings.
- View available rooms in real time.

✓ **Hotel & Room Details**

- View complete information about hotels, including description, address, images, and services.
- Check room details like price, size, facilities, and availability.

✓ **Booking Management**

- Book selected rooms with simple steps.
- View Booking summary before confirmation.
- Check Receive booking confirmation (on-screen via Alert Message)

✓ **My Bookings**

- view all past and upcoming reservations.

✓ **Payment & Billing**

- Secure Payment gateway for online transactions.
- View Payment Status in my bookings (paid or unpaid).

✓ **Support & Feedback**

- Contact Hotel support for queries .
- Provide feedback/reviews for hotels and services.

☒ **Admin Panel :**

✓ **Admin Login & Authentication**

- Secure login system for administrators.
- Role-based access (optional for multiple admins/managers).

✓ **Dashboard**

- Overview of total hotels, rooms, bookings, and users.
- Quick statistics on available rooms and revenue.

✓ **Hotel Management**

- Add new hotels with complete details (name, address, description, images, price).
- Edit or update existing hotel information.
- Delete hotels from the system if required.

✓ **Service Management**

- Add or update services such as WiFi, swimming pool, parking, breakfast, and air conditioning.
- Enable/disable services for specific rooms or hotels.

✓ **Booking Management**

- View all customer bookings with details.
- Approve, modify, or cancel reservations.
- Track booking history for reporting.

✓ **User Management**

- View registered users and their booking history.
- Handle user queries or complaints.

1.2. Project Profile :-

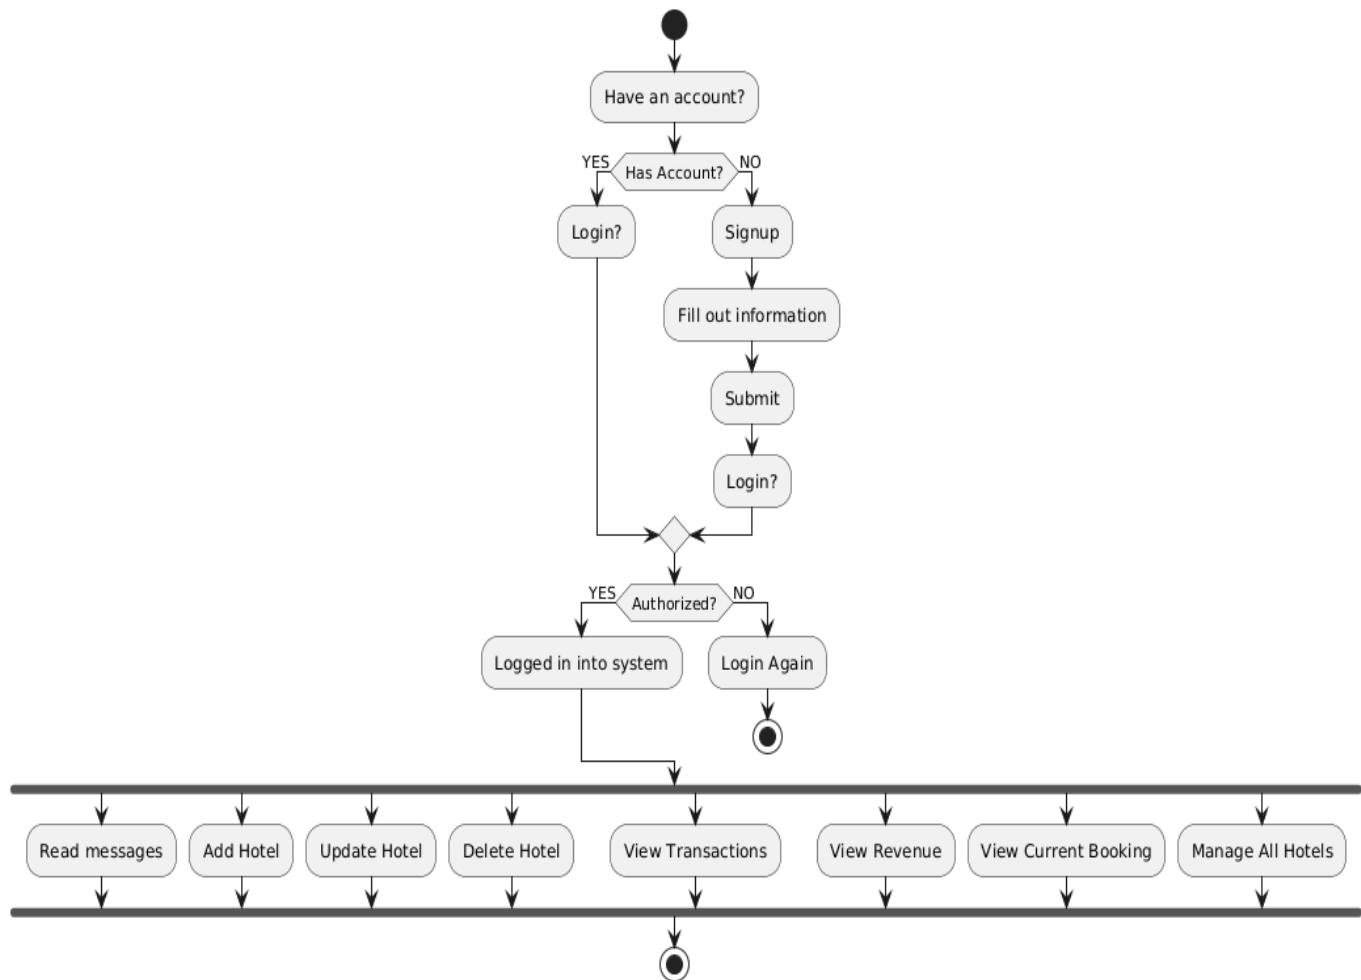

Hotel Booking System	
Project title:	Hotel Booking System
Frontend:	HTML , CSS3 , JavaScript
Backend:	PHP , MYSQL
Browser:	Chrome, Edge
Platform:	VS Code,
Documentation tool:	MS Word
Internal Guide:	Viral B Polishvala
Submitted To:	Viral B Polishvala

2. Objectives

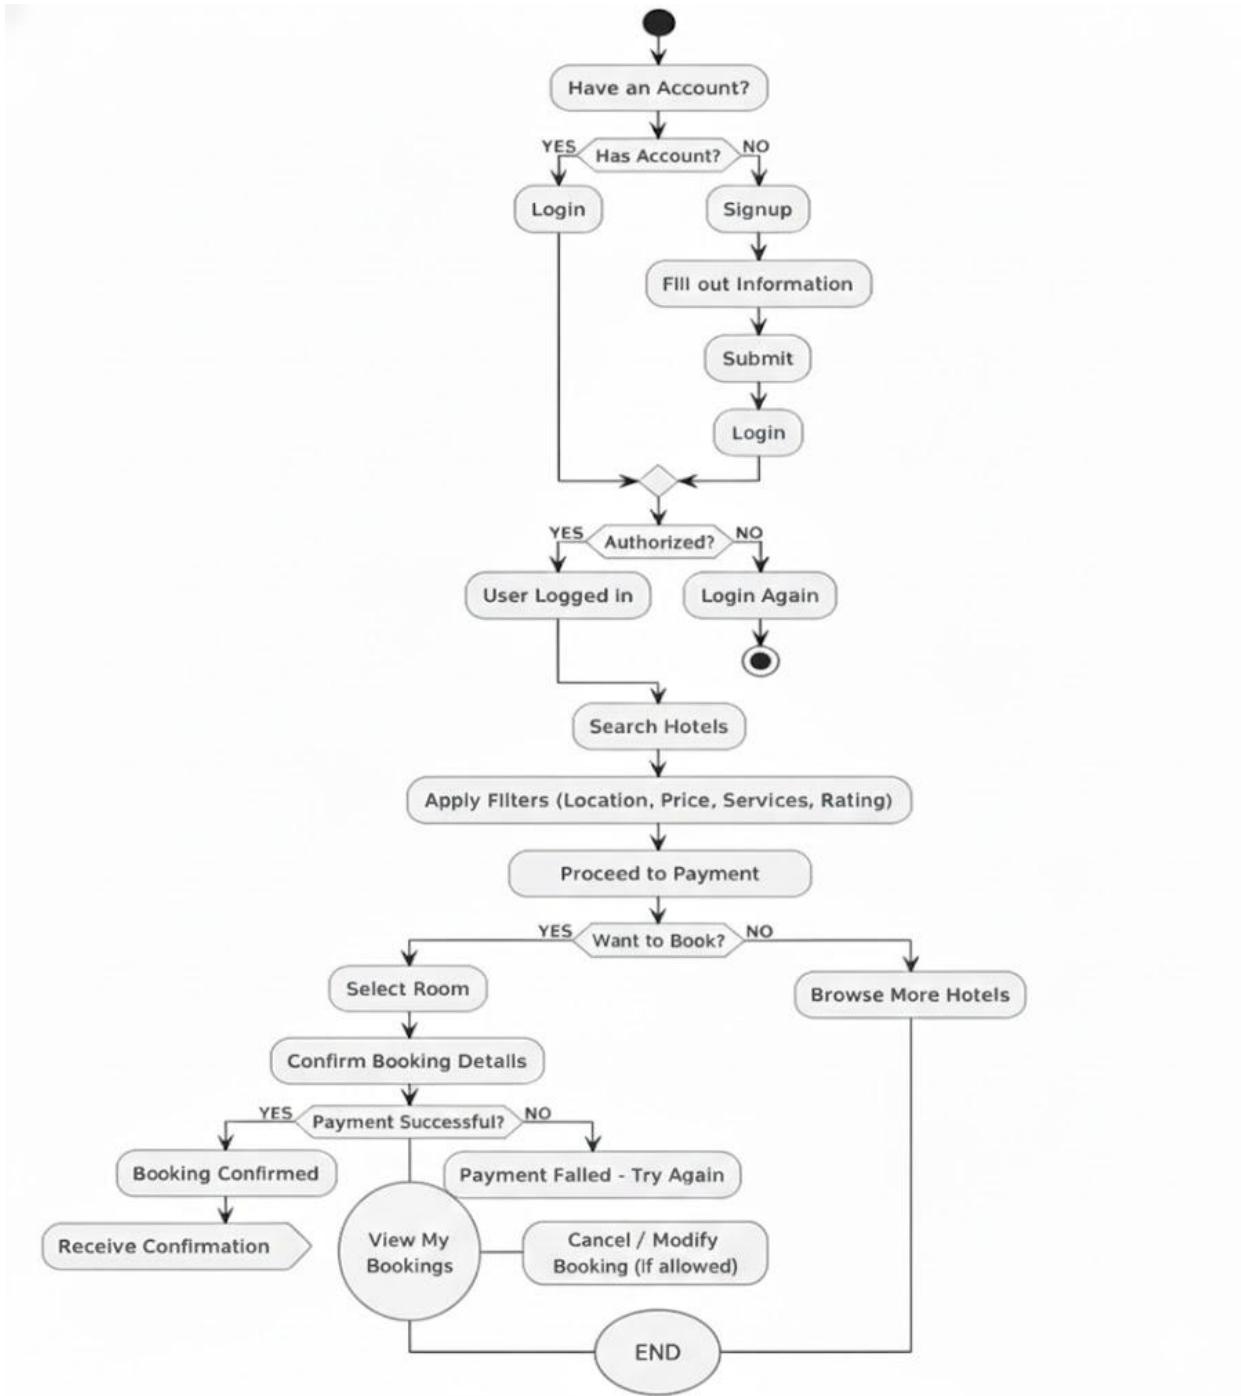

- 1. Simplify Hotel Search** – Allow users to easily search for hotels based on location, price, services, and availability.
- 2. User-Friendly Booking Process** – Provide a simple and secure booking flow for customers.
- 3. Transparency** – Display accurate details about rooms, services, pricing, and availability.
- 4. Admin Management** – Enable hotel administrators to add, update, and manage room listings, services, and reservations efficiently.
- 5. Accessibility** – Make the system available anytime and anywhere through a responsive web design.
- 6. Data Security** – Ensure safe handling of customer data and booking transactions.
- 7. Efficiency** – Reduce manual work for both customers and hotel staff by automating the booking process.

What Client Says

James Tan
Operations Manager

Hotel options were diverse and affordable. The booking was seamless, and check-in went smoothly. Fantastic experience overall, thank you!

Priya Sharma
HR Executive

Efficient booking system with amazing discounts. I appreciated the clear details and fast confirmation. Everything was perfectly organized and reliable.

Daniel Ruiz
Freelance Photographer

User-friendly website with excellent hotel choices. Customer support was responsive and helpful. Will use this service again for sure!

hotel.php :

The screenshot displays the hotel.php page of a website named "Ecoland". The top navigation bar includes links for Home, Services, About, Hotel, Restaurant, Contact, My Booking, user, and a red bell icon. A large banner at the top features a tropical beach scene with palm trees and umbrellas, with the text "Find Your Hotel" overlaid. Below the banner, a breadcrumb trail shows "Home > Hotel >". The main content area has a dark green background and contains three thumbnail images of hotels: a modern building at night, a resort with palm trees and a pool at sunset, and another modern building at night. Below each thumbnail is a yellow button labeled with a price: \$5000, \$5999, and \$599 respectively. Each listing also includes the hotel name, location, star rating, review count, and a "Book Now" button.

Hotel Name	Location	Rating	Reviews	Price
Park Hyatt Tokyo	Japan	★★★★★	(84)	\$5000
Lemon Tree	Rishikesh	★★★★★	(100)	\$5999
Buffalo Mountain Lodge	Canada	★★★★★	(70)	\$599

1 2 >

my_bookings.php :

The screenshot shows a dark green header with the logo 'Ecoland' and navigation links: Home, Services, About, Hotel, Restaurant, Contact, My Booking, User, and a search icon. Below the header is a white section titled 'My Hotel Bookings' with a small info icon and the message 'You haven't booked any hotels yet.' A blue button labeled 'Browse Hotels' is present. At the bottom of the page is a green footer with links: 'About Ecoland', 'Information', 'Experience', 'Have a Question?', and a contact section with address '203 Fake St. Mountain View, San Francisco, California, USA' and phone '+2 392 3929 210'.

- It will redirect to the hotel.php .

The screenshot shows a dark green header with the logo 'Ecoland' and navigation links: Home, Services, About, Hotel, Restaurant, Contact, My Booking, User, and a search icon. Below the header is a grid of three hotel listings. Each listing includes a photo, price (\$699, \$2999, or \$1299), name (abc, Dana Grimes, or Four Seasons Hotel George), location (abc, Dolores Asperiores MI, Paris - France), rating (★★★★★), review count (100, 66, or 99), and a 'Book Now' button. Below the grid are two additional photos of hotel exteriors.

The screenshot shows a 'View Services' page with a search bar at the top. Below it is a table with three rows, each representing a service type. The columns are ID, ICON, TITLE, and DESCRIPTION.

ID	ICON	TITLE	DESCRIPTION
1		Activities	Discover exciting activities tailored to all interests adventure, culture, nature, and more for unforgettable experiences at every destination.
2		Travel Arrangement	Seamless travel arrangements including flights, accommodations, transport, and activities professionally planned for a stress free, enjoyable journey.
3		Private Guide	Enjoy a personalized experience with a private guide—expert insights, flexible itineraries, and exclusive access tailored to you.

At the bottom, there are navigation buttons: a green '1', a grey '2', and a grey 'Next >'. A green '+ Service' button is located in the top right corner of the main content area.

This screenshot shows the same 'View Services' page as the first one, but the table has been simplified. It now contains three rows of text descriptions, each with an 'EDIT' button to its right.

DESCRIPTION	EDIT	DELETE
Discover exciting activities tailored to all interests adventure, culture, nature, and more for unforgettable experiences at every destination.	<button>Edit</button>	<button>Delete</button>
Seamless travel arrangements including flights, accommodations, transport, and activities professionally planned for a stress free, enjoyable journey.	<button>Edit</button>	<button>Delete</button>
Enjoy a personalized experience with a private guide—expert insights, flexible itineraries, and exclusive access tailored to you.	<button>Edit</button>	<button>Delete</button>

Navigation buttons and the '+ Service' button are identical to the first screenshot.

The screenshot shows the kaiadmin dashboard with a dark sidebar on the left containing navigation links: Dashboard, Services, Destination, Hotel, Restaurant, Rooms, and Bookings Details. The main content area features a search bar at the top right and a central modal titled "Add Services". The modal has three fields: "Title" (24/7 Support), "Content" (This is a best customer service , we are connected to you 24/7.), and "Icon" (clock). A "Submit" button is located at the bottom right of the modal. At the bottom of the page, there are footer links for ThemeKita, Help, and Licenses, along with copyright information (2024, made with ❤ by ThemeKita) and a distribution note (Distributed by ThemeWagon).

Edit Service :

The screenshot shows a browser window with the URL localhost/php-project/hotel-booking/admin/addService.php?u_id=1. The interface is identical to the "Add Services" screen in the previous screenshot, featuring a sidebar with the same navigation links and a central "Add Services" modal. In this version, the "Title" field contains "Activities" and the "Content" field contains "Discover exciting activities tailored to all interests adventure, culture, nature, and more for unforgettable experiences at every destination.". The "Icon" field contains "flaticon-gliding". The "Submit" button is present at the bottom of the modal. The footer links, copyright notice, and distribution note are also visible.

Below the table is a page navigation bar with buttons for 1, 2, 3, 4, and "Next »". At the bottom of the page are links for "ThemeKita", "Help", and "Licenses". The footer includes the text "2024, made with ❤ by ThemeKita" and "Distributed by ThemeWagon".

This screenshot shows the same booking management interface as the first one, but with a modal dialog box overlaid. The dialog box has a dark background and contains the text "localhost says" and "Are you sure to delete this booking?". It features two buttons: "OK" (highlighted with a yellow glow) and "Cancel". The rest of the page, including the sidebar and the booking table, is dimmed.

The screenshot shows a booking management interface. On the left is a dark sidebar with the 'kaladmin' logo and a navigation menu including 'Dashboard', 'Components', 'Services', 'Destination', 'Hotel', 'Restaurant', 'Rooms', and 'Bookings Details'. The main area has a light gray header with a search bar containing 'Search ...' and a user profile 'Hi, Avadh' with notification icons. A central modal window titled 'Booking Details' displays a search result for 'us'. Below the search bar is a table with columns: ID, FULL NAME, USER ID, HOTEL, CHECK-IN, CHECK-OUT, GUESTS, PAYMENTS, and ACTION. Two rows are shown:

ID	FULL NAME	USER ID	HOTEL	CHECK-IN	CHECK-OUT	GUESTS	PAYMENTS	ACTION
22	user	4	Japan	02-Oct-2025	05-Oct-2025	4	✓	<button>Delete</button>
21	user1	9	abc	09-Oct-2025	11-Oct-2025	12	✓	<button>Delete</button>

At the bottom of the page are links for 'ThemeKita', 'Help', and 'Licenses', and a footer note '2024, made with ❤ by ThemeKita'. On the right, it says 'Distributed by ThemeWagon.'

This screenshot shows a restaurant listing page. The left sidebar is identical to the previous one. The main area has a light gray header with a search bar containing 'Search ...' and a user profile 'Hi, Avadh' with notification icons. A green button '+ Restaurant' is visible in the top right. A central modal window titled 'View Restaurants' displays a search result for 'Search restaurants by location, shop name, or price...'. Below the search bar is a table with columns: ID, LOCATION, SHOP NAME, START AT, STAR, IMAGE, RATE, EDIT, and DELETE. Three rows are shown:

ID	LOCATION	SHOP NAME	START AT	STAR	IMAGE	RATE	EDIT	DELETE
15	Basque Country , Spain	Asador Etxebarri	\$10	★★★★★		100	<button>Edit</button>	<button>Delete</button>
16	Motavaracha , Surat	La Freskko	\$7	★★★★☆		70	<button>Edit</button>	<button>Delete</button>
17	Copenhagen, Denmark	Alchemist	\$9	★★★★☆		89	<button>Edit</button>	<button>Delete</button>

At the bottom center is a small green square with the number '1'.

The screenshot shows a search interface for restaurants. A search bar at the top contains the text "abc". Below it, a message says "No records found!".

The screenshot shows a search interface for restaurants. A search bar at the top contains the text "co". Below it, a table displays two restaurant entries:

ID	LOCATION	SHOP NAME	START AT	STAR	IMAGE	RATE	EDIT	DELETE
15	Basque Country , Spain	Asador Etxebarriee	\$10	★★★★★		100	<button>Edit</button>	<button>Delete</button>
17	Copenhagen, Denmark	Alchemist	\$9	★★★★☆		89	<button>Edit</button>	<button>Delete</button>

The screenshot shows a web-based hotel booking system interface. On the left is a dark sidebar with the 'kaiadmin' logo and navigation links: Dashboard, Services, Destination, Hotel, Restaurant, Rooms (which is selected), and Bookings Details. The main content area has a light gray header with a search bar ('Search ...'), a notifications bar with three icons (envelope, bell, file), and a user profile ('Hi, Avadh'). A green button '+ Rooms' is in the top right. Below the header is a white card titled 'View Rooms'. It contains a search bar ('Search rooms by title, location or price...') and a table with columns: ID, TITLE, and PRICE. The table rows show room details:

ID	TITLE	PRICE
2	The Classic Balcony	59
3	Boutique Hotel	99
4	The Classic Resort	149
5	Luxury Rooms	299
6	The Business Rooms	249

The room descriptions are partially visible.

This screenshot is similar to the one above, showing the 'View Rooms' page. The search bar now contains the number '59'. The table results are identical to the first screenshot, showing the same six room types with their respective details.
